

Our Mission

Empowering the blind & visually-impaired.

We accomplish this through employment in our manufacturing plant, military base stores and our rehabilitation programs. These opportunities allow people to live productive lives with dignity turning dis-ABILITY into ABILITY.

The San Antonio Lighthouse is the community icon for training and educating the blind and vision impaired, in addition to being a leader in manufacturing and military retail sales.

Our products and sales support all branches of the military with U.S. made products.
